Subject: Stop the destruction of native plants

Dear Sir,

I am requesting an immediate moratorium on all clearing under aps lines in desert environments.

The blatant disregard and unnecessary destruction of the very sensitive desert ecosystem is a through back to the 1970's when Saguaro's were bulldozed and regarded at trash.

Sir, I am a desert guide, I lead treks out into the desert and have exposed hundreds of visitors to our state to the wonders of the Saguaro and the importance that it has in the fine web of nature that is present in the Sonoran desert.

There is absolutely not reason that APS should be destroying these plants.

Saguaros, unlike other cactus's can be topped and still thrive. So , a height argument is not valid.

Sir, I am asking for the commission to stop this practice of clearing under towers and lines.  
Most, maintenance of lines it preformed from helicopter and when ground access is required I am sure trucks can maneuver around Saguaros and other desert plants.
